*Age at freshening in Years.Months; DIM=Days in Milk (305 or less); Milk in pounds; BF=Butterfat in pounds;
BF%=Butterfat percentage; Pro= Protein in pounds; Pro%=Protein percentage

Does are listed in the highest category for which they qualified. Qualifying amounts for the category are indicated in bold. Within categories, they are listed in descending order, starting with the highest qualifier in milk. Following those who qualified in milk, are those who qualified for the category on butterfat only, again in descending order. In case of a tie in milk as the qualifying amount, the doe with the fewer days in milk will be listed first. In case of a tie in butterfat as the qualifying amount, the doe with the higher milk production will be listed first.

All of the does which qualified for the Silver Juju award on butterfat alone qualified for the Bronze award in milk.
Six of the does that qualified for Juju awards in 2010 have their Advanced Registry Master Championship.

If errors are discovered in the 2010 Juju Awards or 2010 Completed Nigerian Dwarf Lactation records, contact Production Committee Chair, Karyl Dronen, so that corrections can be published in the next newsletter.
