## 2007 PRODUCTION AWARDS

*Compiled by Gail Patcher-DHI Coordinator  
10 Hilltop Drive  
Stockton, NJ 08559  
(609)773-0060  
gaymornd@comcast.net*

The records included in this booklet consist of all those lactations of 305 days or less *completed in 2007* and the records of all does participating in one-day tests during 2007.

This was another banner year for DHIR testing. There were thirty-five herds on test in sixteen different states. There were five herds testing standard sized does. The rest were Nigerians. There were 258 lactations completed in 2007. Some does completed more than one lactation. There were 149 qualifying records.

The quality of Nigerians keeps improving. When testing first began it was unusual to see a record of 1,000 lbs. Now, it takes more than that just to make the Top Ten!

There were twenty-five applications for one-day tests made in 2007, and twenty-two tests were completed. Five group tests and seventeen single herd tests were done. There were 124 does tested, representing twenty-eight owners. Eighty-five does made qualifying records.

Twelve bucks qualified as of March 1, 2008 for their plus sire titles, and one qualified as a ++S.

There are thirty-three herds signed up so far for DHIR testing in 2008, and more herd-owners have expressed interest in applying.

It's easy, inexpensive, especially now that AGS offers the Owner-Sampler program, and lots of fun to milk test your animals. Why not make this year the year you try it for the first time?

### HOW TO READ MILK RECORDS

#### DHIR Records

**For instance: 2.10-21 1/8-305-1115-79(7.1%)46(4.1%)**

This means that the doe started her lactation at the age of two years and ten months. At some time during this lactation she was officially measured at 21 1/8" (only miniature breeds are measured). In 305 days she milked 1115 lbs. of milk, 79 lbs. of butterfat averaging 7.1% and 46 lbs. of protein averaging 4.1%.

#### One-Day Test Records

**For instance: 3.06-21 5/8-22-6.0-5.1-3.6-68.49**

This means that the doe was three years and six months old on the day she was tested. She was officially measured at 21 5/8" tall. She gave 6.0 lbs. of milk at 5.1% butterfat and 3.6% protein, and her total score was 68.49.

*Top Ten booklets for each year from 1988 on are available  
at only \$5.00 each. Contact the AGS office to order.*

3	<b>Tochay's Meriadoc *D</b>	Sisco	1.09	175	572	26	4.5%	<b>1982</b>
4	<b>Buttin'Heads Hope's Springs Eternal *D</b>	Rucker	2.11	260	530	37	7.0%	<b>1996</b>

*No Pygmies participating in one-day tests qualified*

*Please note that prior to 1993 no record was kept of either DHIR records or one-day test records that did not qualify.*

*Also, the standard doe records used in the All-Time Awards include only those does making records from 1963 on. Unfortunately, all records prior to this year have been lost. There will soon be Top Ten booklets for standard does going back to 1963. Some years will be combined. They will be available for only \$5.00 per booklet. If you'd like to have an Excel file containing either Nigerians' or standard does' records, please contact Gail Patcher.*
