## **2010 PRODUCTION AWARDS**

*Compiled by Gail Patcher-DHI Coordinator*

*10 Hilltop Drive*

*Stockton, NJ 08559*

*(609)773-0060*

*gaymornd@comcast.net*

The records included in this booklet consist of all those lactations of 305 days or less *completed in 2010* and the records of all does participating in one-day tests during 2010.

This was another banner year for DHIR testing. There were 41 herds on test in 18 different states. There were 6 herds testing standard sized does. The rest were Nigerians. There were 308 lactations completed in 2010. Some does completed more than one lactation. There were 191 qualifying records, although some does missed qualifying because they hadn't been measured.

There were 4 owner/sampler herds.

There were 30 applications for one-day tests from 10 states made in 2010, and 26 tests were completed. 5 group tests and 21 single herd tests were done. There were 174 records, representing 26 owners. 83 does made qualifying records, and 83 did not qualify. There were 6 transfers of records from ADGA tests.

24 Nigerian bucks qualified as of March 1, 2011 for their plus sire titles, and 4 qualified as a ++S. 5 Nigerian does qualified for stars by progeny. There are 26 herds signed up so far for DHIR testing in 2011, including 2 owner sampler herds, with 442 does enrolled, and more herd owners have expressed interest in applying.

It's easy, inexpensive, especially now that AGS offers the Owner-Sampler program, and lots of fun to milk test your animals. Why not make this year the year you try it for the first time?

### **HOW TO READ MILK RECORDS**

#### **DHIR Records**

**For instance: 2.10-21 1/8-305-1115-79(7.1%)46(4.1%)**

This means that the doe started her lactation at the age of two years and ten months. At some time during this lactation she was officially measured at 21 1/8" (only miniature breeds are measured). In 305 days she milked 1115 lbs. of milk, 79 lbs. of butterfat averaging 7.1% and 46 lbs. of protein averaging 4.1%.

#### **One-Day Test Records**

**For instance: 3.06-21 5/8-22-6.0-5.1-3.6-68.49**

This means that the doe was three years and six months old on the day she was tested. She was officially measured at 21 5/8" tall. She gave 6.0 lbs. of milk at 5.1% butterfat and 3.6% protein, and her total score was 68.49.

***Top Ten booklets for each year from 1988 on are available at only  
\$5.00 each. Contact the AGS office to order  
Contact Gail Patcher for free spreadsheets for all records***

# Lincoln Awards

Mrs. J.C. Lincoln was a past president of AGS and was both a strong supporter of the organization and promoter of dairy goats in general. She raised a herd of prize winning Nubians under the herd name of Desert Nubians. Mrs. Lincoln raised Nubians for 20 years and donated her herd of 17 goats to Arizona State University in 1967. She was a strong believer in goat milk and drank it daily most of her life. She was a philanthropist, whose generous donations to John C. Lincoln Hospital & Health Center, Phoenix Boys Choir, Heard Museum, YMCA Say Y Camp and AGS have been put to many good uses. Mrs. Lincoln had a simple philosophy about philanthropy. She said, "If you have more money than you need for bread and beans, give it to somebody else. I just did what had to be done." Mrs. Lincoln died on November 12, 1994, at the age of 103. We are honored to have had such a selfless, caring individual involved with AGS.

She donated money to AGS to use for production awards. Some of the interest from this money is used for an annual award program to recognize the three does of each breed with the highest amount of milk in 305 days or less during the year.

These awards are presented annually at the Board of Directors meeting or summer event. 1st place is \$30.00, 2nd place is \$20.00 and 3rd place is \$15.00.

Does must be AGS registered and must have been on DHIR test with AGS. Does must have had a verification test during the qualifying lactation. Miniature breeds must be within the height standards.

Only does who met the minimum standard for milk weight are considered for these awards.

Because the current test results must be approved by the awards committee before being published, last year's results are included here.

## 2009 Lincoln Awards

### Nigerian Dwarf

Ironwood Ranch SJ Minnie 2*D	Carpenter	2.00-22-292- <b>1,335</b> -75(5.6)59(4.4)
